

Mall and Restaurant Water Audit - Worksheet 2

Name: _____

Class: _____

Date: _____

Be a Smart Water-saving Customer

Step One: Observe water saving efficiency of restaurants

According to the recent dining out experience, try to observe whether the restaurant implements water conservation measures and rate its effectiveness.

Date: _____ Time: _____

Name of the restaurant: _____

Water Conservation Measures	Applied? (Y/N)
Serve / refill water only upon customers' request	
Provide self-service drinking water station for customers	
Provide basic dining utensils and serve extra utensils only upon customers' request	
Replace bone plates and dining utensils only upon customers' request	
Display water saving notices to raise customers' awareness on water conservation	
Others:	

Water saving rating: ☆☆☆☆☆ (Obtain ONE ☆ upon completion of each measure)

Do you think the restaurant has adopted sufficient water conservation measures? If not, please provide your opinion.

Step Two: Self-assessment

According to the recent dining out experience, try to rate your performance on water conservation.

Water Conservation Measures	Applied? (Y/N)
Replace dining utensils only when necessary	
Request water refills only when necessary	
Do not order excessive food. Avoid food wastage	
Eat more vegetables and less meat	
Others:	

Water saving rating: ☆☆☆☆☆ (Obtain ONE ☆ upon completion of each measure)

Step Three: Putting into practice with family and friends

Design a campaign “Be a Smart Water-saving Restaurant / Customer” in a group to share the messages with your family and friends.

Write down your reflection of the activity.
